

March 10, 1952

Dear Dr. Frazier:

Dean Kivlin informs me that formal action by the Curriculum Committee will be required before the catalog can be altered with respect to the time of offering of Genetics-Bacteriology 107. I would appreciate the following request being laid before the committee:

That in the descriptions of Genetics 107 and Bacteriology 107 the statement that they will be offered in alternate years (1950-52; '53-54, etc.) be stricken out.

The requirements for a previous course in microbiology and consent of instructor stand in the present form.

Thank you,

Joshua Lederberg
